

PRESSURISED, SAFE AND PURE WATER FOR YOUR WHOLE HOME.

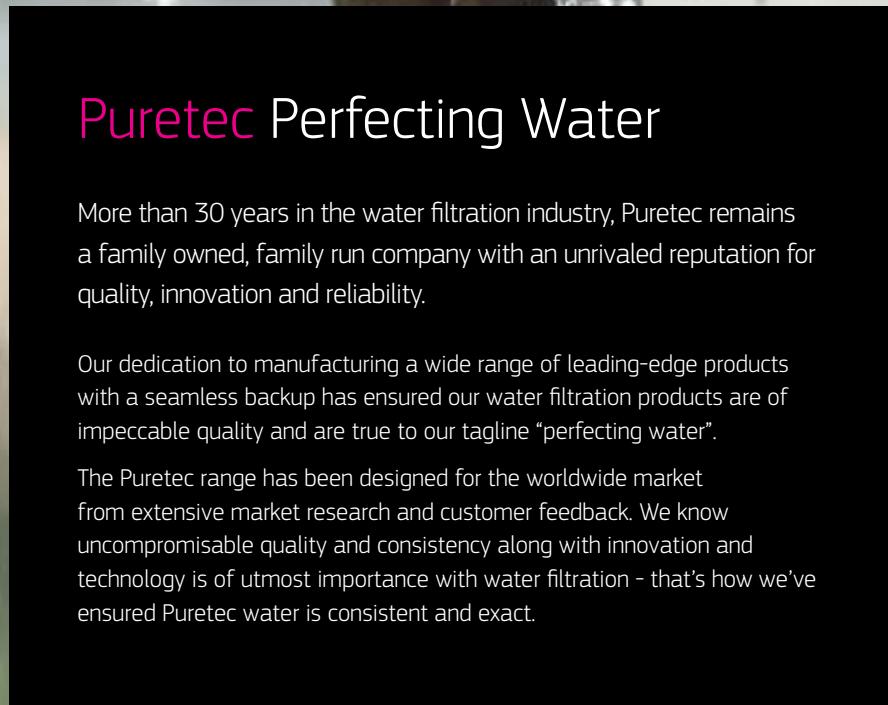

HybridPlus Series

All-in-One Pump*, Ultraviolet Steriliser and
Three-Stage Filtration System

*HybridPlus P3, P6, P9, P12 models.

Patent Pending

Puretec Perfecting Water

More than 30 years in the water filtration industry, Puretec remains a family owned, family run company with an unrivaled reputation for quality, innovation and reliability.

Our dedication to manufacturing a wide range of leading-edge products with a seamless backup has ensured our water filtration products are of impeccable quality and are true to our tagline "perfecting water".

The Puretec range has been designed for the worldwide market from extensive market research and customer feedback. We know uncompromisable quality and consistency along with innovation and technology is of utmost importance with water filtration - that's how we've ensured Puretec water is consistent and exact.

An all-in-one pump,* UV steriliser and three-stage filtration system that delivers pressurised, safe and pure water for your whole home.

Designed specifically for rainwater, the patented Puretec HybridPlus is a complete plug & play package with pump*, filters & UV steriliser all-in-one unit that is weatherproof, rodent proof, tamper proof and reduces pump noise.

Importantly, the HybridPlus Series systems incorporate Radfire™ ultraviolet technology, a natural purification process that's completely eco-friendly, chemical-free and kills 99.9% of bacteria including E. Coli, Giardia, and Cryptosporidium Cysts.

HybridPlus Series systems are manufactured by Puretec to the highest of standards and tested to ensure AU/NZ requirements are not only met but exceeded. HybridPlus systems are designed for rainwater but also suited for other water supplies subject to water quality.

Puretec products are manufactured to impeccable standards and to back this up, the HybridPlus Series comes with a 3-year Puretec platinum warranty.

*HybridPlus P3, P6, P9, P12 models.

Designed specifically for rainwater, the Puretec HybridPlus is a complete plug & play package with pump*, filters & UV in one unit that is weatherproof, rodent proof, tamper proof and reduces pump noise.

Premium Puretec four stage water treatment including UV protection with filter monitor gauges, lamp fail alarm, lamp count-down timer and surge protection.

A 3-point locking system ensures the unit is secure from tampering or vandalism.

The P1 model is compatible with a range of pumps if you wish to select a particular model or use your existing pump.

Provisional bolt-holes so the system can be fixed to a platform or slab, securing it from high winds and vandalism.

Adjustable feet to eliminate instability and vibration.

*HybridPlus P3, P6, P9 and P12 models.
*Fittings on installed picture not included.
HybridPlus P12 model pictured.

STAGE 1: SEDIMENT FILTRATION

A washable sediment filter that removes coarse dirt, sand and particles down to 5 micron.

The HybridPlus Series systems are manufactured by Puretec to stringent standards and tested to ensure that AU/NZ standards are met and exceeded. The HybridPlus systems are suitable for both tank only, mains water back-up, bore water and surface water treatment subject to water quality.

Patented cabinet with gull wing style access doors looks great whilst providing easy access for maintenance, is corrosion resistant and lockable to prevent tampering.

Unique connection system so that water flow can be connected to the left or right hand sides for fast, easy and neat installation.

Premium pump*, pressure controller and optional mains/rain changeover switch to ensure adequate pressure and seamless back up from the mains/ municipal water supply.

STAGE 4: BACTERIA PROTECTION

Kills 99.99% of E. Coli, Giardia and Cryptosporidium Cysts with Radfire™ ultraviolet technology, a natural purification process that's completely eco-friendly and chemical free.

Patent Pending

STAGE 3: FINE SEDIMENT FILTRATION

Removes fine sediment and particulate down to 1 micron.

STAGE 2: TASTE AND ODOUR REMOVAL

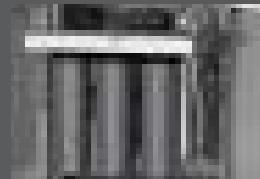

Reduces bad taste, odour, herbicides, pesticides and chemicals.

^Warranties in this document cover parts for 3 years and include cover for parts and labour for the first year where applicable, subject to approval excluding the pump which is covered by Grundfos's own back-to-base 2 year warranty.

HYBRID P SERIES | Features, Benefits and Selector Guide

The feature laden HybridPlus Series is a four stage water filtration and water disinfection system that will ensure your water is safe and clean all year round. These systems are manufactured by Puretec to stringent standards and are suitable for both tank only, mains water back-up, bore water and surface water treatment subject to water quality.

Premium Puretec four stage water treatment including UV protection with filter monitor gauges, lamp fail alarms, lamp count-down timer and surge protection.

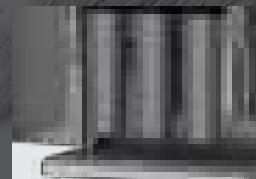

BACTERIA PROTECTION

Kills 99.9% of E. Coli, Giardia and Cryptosporidium Cysts with Radfire™ ultraviolet technology, a natural process that's completely eco-friendly and chemical-free.

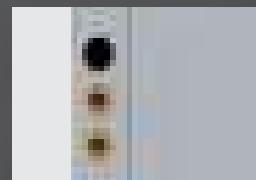

Patented cabinet with gull wing style access doors looks great whilst providing easy access for maintenance, is corrosion resistant and lockable to prevent tampering.

P1 model is compatible with a range of pumps if you wish to select a particular style of pump or use your existing pump.

Premium pump*, pressure controller and optional mains/rain changeover switch to ensure adequate pressure and seamless back up from the mains/municipal water supply.

Unique connection system so that water flow can be connected to the left or right hand sides for fast, neat and easy installation.

A 3-point locking system ensures the unit is secure from tampering or vandalism. Provisional bolt-holes so the system can be fixed to the ground to secure from high winds.

Neatly concealed ventilation to allow airflow and heat dissipation. Also equipped with noise shielding and built-in anti vibration feature that drastically reduces noise from the pump.

HYBRID P SERIES, PUMP PROVISION MODEL

All-in-one UV, filtration with weather cabinet, 20", 1" connection, pump provision only

Suitable for medium to large households the HybridPlus is a comprehensive whole house UV filter system with triple-stage filtration that is designed for both mains and rainwater supplies. This unit features a weather protection cabinet that is suitable for outdoor installation and is weatherproof, rodent proof, tamper proof and reduces pump noise.

HYBRID P1

The HybridPlus P1 includes a provision for your own pump and is also fitted with filter monitor gauges, lamp fail alarms, lamp count-down timer and surge protection.

This system reduces sediment, chemicals including chlorine, bad taste, odour and is highly effective in eliminating bacteria and parasites in your water. It uses Radfire™ ultraviolet technology to kill 99.9% of bacteria, an eco-friendly process that does not use chemicals. It turns your rainwater into pure, safe, delicious and healthy drinking water!
